

PHOTOGRAPHERS' HANDBOOK

January 2022

Welcome Message

Message from Director General of Media Operations

Dear Friends,

We are excited to announce that we are ready!

On behalf of the entire Beijing 2022 Media Operations Team, I would like to extend a warm welcome to all of you and sincere gratitude for your support as always and your valuable suggestions and contributions.

This Photographers' Handbook, available on MyInfo and Beijing 2022 Media Extranet, provides essential information for the Games-time photo operations. The photo team will do their best to assist in your coverage and operations with all of our Games-time services. Beijing 2022 is taking necessary measures to protect all Games participants, including the media, from the raging COVID-19 pandemic. For more information about the Games COVID-19 policy, please refer to the Playbook.

The International Broadcast Centre (IBC) and Main Press Centre (MPC) in Beijing are co-located in the Main Media Centre (MMC) building, where you will have easy access to all media services and facilities. In the Zhangjiakou Zone, you can access the same media services at the Mountain Press Centre (ZPC). There are also professional Media Operations teams whom you can turn to for help. You can find them in all competition venues, the two medals plazas, the three Olympic Villages and the National Stadium.

After more than six years of preparation, the Olympic Winter Games Beijing 2022 is finally coming. I hope that Beijing 2022 will bring you joyful and unforgettable memories. Your participation in and coverage of the Games will make it truly splendid and meaningful.

Xu Jicheng

Director General, Media Operations Department
Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games

Message of Photo Chief

欢迎 colleagues and fellow photographers. Welcome to China and to the Olympic Winter Games Beijing 2022!

I personally would like to thank you for your attention to the progress on Beijing Winter Games preparation, and for making it here despite all the inconveniences caused by the global COVID-19 pandemic.

Looking back on the past six years of preparation, we have come a long way, and we are today ready and proud to deliver a enjoyable and memorable Winter Games to you, just as we did the Summer Games in 2008.

The goal of my team has remained unchanged since day one: to do our best and provide you with the best possible photo positions, facilities and services in all venues.

Within our team, we have 33 full-time staff, 11 respected international photo managers and 286 photo volunteers, a photo team of 330 each dedicated to supporting and delivering a successful photo operations. They are all well trained and have proven themselves in test events. They are young, professional and have fire in their heart, which even the ice and snow cannot put out.

As Photo Chief, I am also very proud of the fact that 71% of my photo team are female, which I believe to be a record at the Olympic Games for photo operations.

As the Beijing 2022 Games unfolds itself, I believe that many of you share with me the beautiful memories of the truly exceptional Beijing 2008 Olympic Games. I hope you will enjoy the Olympic Winter Games and use your camera to capture its special, wonderful moments and leave Beijing, the world's first dual-Olympic city, a visual feast about its eternal and rich Olympic legacy.

Wang Muqing (Alan)

Photo Chief
Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games

01 *Photo Operations*

Photo Team

The 330-member Photo Team provides photo facilities and services to photographers in the Main Media Centre (MMC), Zhangjiakou Mountain Press Centre (ZPC), all competition venues, the two medals plazas, and the venue for the Opening and Closing Ceremonies.

The core team is in charge of coordinating photo operations, and will work from the Photo Help Desk in the MMC during Games time.

Each Venue Photo Manager (VPM) oversees in-venue photo operations and works with Deputy Venue Photo Manager (DVPM), Photo Supervisors, and Photo Assistants (volunteers) to provide photo services to photographers.

Photographers' Workspaces

At the MMC, ZPC and each Venue Media Centre (VMC), a photo help desk and a photo workspace/work area are provided. In Zhangjiakou Genting Snow Park, there is also a photo filing room for photographers working nearby.

Photo Lockers

Photo lockers are available at the MMC, ZPC and VMCs. Please note that photo lockers at VMCs are only for same-day rental, and please consult the photo help desk at the venue for the rental policy and procedures. Yanqing National Alpine Skiing Centre and Zhangjiakou Genting Snow Park also provide ski racks.

Photo Briefing

The briefing is scheduled at 09:30 on 3 February 2022, in the main press conference room of the MMC. Photo Chief and Deputy Photo Chief will introduce the policies, rules, and procedures of photo operations, precautions, photo positions and facilities in each venue, and take questions about photo services. Many Venue Photo Managers will also be present.

The briefing will be useful for photographers to formulate their working plans during the Games. Attendance is on a voluntary basis. Simultaneous interpretation will be available. The briefing will be live streamed through the Info system.

Photo Briefing for the Opening Ceremony

This photo briefing is scheduled at 14:00 on 4 February 2022, at the main press conference room of the MMC. The Photo Manager of the National Stadium (Bird's Nest) will introduce photo operations and services at the Opening Ceremony. Simultaneous interpretation will be available.

Please note that the first media shuttle bound to the Opening Ceremony venue won't depart from the MMC until 15:00, so you don't need to worry about scheduling conflict with the briefing.

Venue Daily Photo Briefings

Every day during Games time, the VPM of each competition venue will hold a photo briefing at the press conference room two hours before the start of competition, introducing the day's schedule and photo positions and allocating some key photo positions to photographers present. Therefore, if you need some special photo positions or shooting sessions, you are strongly recommended to go to the daily briefing and contact the VPM.

Photographers' Undertaking

Upon arriving in Beijing, you need to go to the Photo Help Desk in the MMC to sign the Photographers' Undertaking before starting to work. If you are working in Yanqing or Zhangjiakou, you also need to go to the Photo Help Desk at the Beijing MMC, sign the Undertaking and collect your photo sleeve, prior to travelling to your accommodation. The Photographers' Undertaking is formulated by the IOC and its Terms and Conditions include but are not limited to:

Any images captured, depicted or taken by the photographer at the Games, including those of athletes competing within any Olympic venue, shall only be used for still photographic editorial purposes for bona fide news services only.

The use of photographs for advertising or any other commercial or promotional purpose, in any manner, format, media or technology, whether currently existing or created in the future, is strictly prohibited, unless the prior consent of the IOC is obtained.

The use, authorisation to use or dissemination in any form of moving images captured, depicted or taken by a photographer at the Games, in any manner, format, media or technology, whether currently existing or created in the future and whether such use is commercial or non-commercial, is strictly prohibited.

Please read carefully before signing the Photographers' Undertaking and strictly abide by the Terms and Conditions contained therein.

Photographers' Supplementary Access Control Devices

You will receive Supplementary Access Control Devices (SACD) (i.e. photo sleeves) at the MMC after signing the Photographers' Undertaking. At venues, all photographers need to identify themselves with both their Olympic Identity and Accreditation Card (OIAC) and an SACD in order to access photo positions.

Beijing 2022 will issue photo sleeves as SACDs to identify photographers. Each photo sleeve has a registered number exclusively for an accredited photographer, and is non-transferrable.

Photographers need to wear photo sleeves correctly at all times while at the photo positions.

To access some special photo positions in some venues, photographers may need to swap sleeve for a special sleeve. The details will be provided at the same-day venue photo briefing.

Lost and Stolen

If the OIAC is lost, please contact the nearest accreditation centre as soon as possible to cancel the lost/stolen accreditation card immediately.

If the SACD (i.e. photo sleeve) issued by the MMC is lost, please contact the MMC Photo Help Desk as soon as possible. After filling a loss report, you can go to the Photo Help Desk at the MMC or ZPC the next day to pick up a replacement sleeve with the OIAC. If the lost sleeve is issued by a venue, please contact the VPM immediately.

Photographer Access Zones

All photographers will be accredited under the EP category. With the OIAC, photographers can access the MMC and ZPC, Zone 4 in venues (including photo positions, photo workspaces, mixed zones, press conference rooms, media lounges), and take TG transport and Games-taxi and high-speed rail services.

Photo Positions

All photographers can access photo positions with their OIACs and SACDs, but only POOL photographers can access POOL positions with their OIACs and SACDs.

As can be seen from the photo position drawing, photo positions are marked in three colours: red, green and blue. Those marked in red provide data and power sockets, and those marked in green do not provide such services. Each venue has accessible photo positions marked in blue for photographers with disabilities.

Stable wireless connections to the Press Network and 4G/5G networks are available at virtually all photo positions.

COVID-19 Rules

Face mask wearing is mandatory at all times. While at photo positions, remember to keep at least one metre from other photographers and at least two metres from athletes. Do not access areas outside the venue bubble, including public areas and spectator stands.

Other Rules Related to Photo Positions

- It is prohibited to enter or exit, or wander in photo positions where close-up images can be captured while competition sessions are in progress. Photographers are advised to dress in dark to avoid interference with the athletes or the broadcasters. For more information, please go to the daily venue photo briefings or contact the VPM in advance.
- Please mute phones and other equipment while in photo positions.
- Photo positions are available on a first-come, first-served basis unless otherwise specified. Do not leave camera bag or equipment unattended at unoccupied photo positions. Do not take more than one photo position at a time. Only the VPM has the authority to reserve a position.
- For optimal space use in a photo position, please store large items in the designated photo lockers in the venue.
- Tripods are not allowed in the photo positions at any venue and monopods are recommended. Please fold the monopods before moving to another photo position to avoid inconvenience for others.
- Stools and stepladders are not allowed in the venue.
- The use of flashguns or strobe lighting is strictly prohibited during all competition sessions.
- In case of any violation of the above rules, an on-site warning will be issued and put on record, and the NOC concerned will be informed. In case of repeat or serious violations, the offending photographer's accreditation may be cancelled by the IOC.

High Demand Events

For High Demand Events, a ticket will be required to access the venue, in addition to a valid OIAC and a SACD.

Tickets will be distributed to NOCs from the Ticketing Desk at the MMC. The IOC will not allocate tickets directly to photographers, unless the NOC does not have designated staff to handle ticketing matters.

Uncollected tickets will be distributed to photographers on a first-come, first served basis.

The Opening and Closing Ceremonies will be ticketed.

Dress Code

Any conspicuous branding or advertising on photographers' clothing or equipment is strictly prohibited according to the clean venue policy (Olympic Charter Rule 50). This policy must be respected by all photographers at the venues. In case of any breach of the rule, the Venue Photo Team will demand the offending photographer(s) to rectify the situation or leave the venue.

POOL Photographers

A Photo Pool consists of at least six photographers representing:

The International Olympic Photo Pool (IOPP): one position for each IOC international agency (AFP, AP, Reuters, Getty Images and Xinhua);

The International Federation (IF): one position.

POOL photographers can access POOL positions and are granted priority when choosing other photo positions. The VPM can reserve positions for POOL photographers with stickers.

Press Network

Wireless connection to the press network will be available at virtually all photo positions free of charge. The photo positions marked in red will provide access to wired network. Wireless and wired connections will be available at photo workrooms/ work areas in the MMC, ZPC and VMCs.

Wired connections are available through sockets. To use the sockets, please bring a network cable with RJ connectors and its length must not exceed two metres, or seek help at the Photo Help Desk.

Camera Services

Canon, Nikon and Sony will provide professional camera services to photographers at the MMC and ZPC, including camera and lens cleaning, repair, and rental services. Please refer to page 29&76 for service hours.

Transport

See *Media Guide*.

Spectrum (Remote Cameras)

The use of any device that uses radio frequencies (e.g. digital camera which has a Wi-Fi function, wireless release trigger, wireless file transmitter, and walkie-talkies) must be authorised by Beijing 2022 in advance. Even if these devices are independent of operating licenses, prior authorisation must be obtained. After authorisation, the Spectrum Management Team will attach an approval tag to the devices.

Devices that do not require prior authorisation are mobile phones, key chains, and devices that use Bluetooth technology such as wireless keyboards, computer mouse devices and earphones.

For spectrum-related services, please go to the Spectrum Desk at the MMC, ZPC and all competition venues, or also email the inquiries to spectrum@beijing2022.cn

Remote Camera Installation

Installation of remote cameras at any venue must be approved by the Photo Operations Team. The number of remote cameras will be restricted for safety reasons and due to limited space. The VPM will work together with VNI, Technology, and other Functional Areas to inspect and validate the installation process. Any remote camera that violates the appropriate safety standards will be removed.

Wireless Release Trigger

All remote controllers including wireless triggering devices (e.g. Pocket Wizard) are subject to inspection and approval by the Spectrum Management Team.

For inquiries, please contact: spectrum@beijing2022.cn

Wi-Fi

Please use the Press Network (wireless) provided by Beijing 2022. Do not use your own mobile router to connect to the network without authorisation.

Security Checks

Photographers and their baggage and belongings must go through security checks before entering any venue. Photographers' tools of the trade can be carried into the venues by photographers and technicians.

Tools of the Trade

The following tools of the trade can be taken into venues by photographers and technicians after completing the security scanning procedure.

Camera Equipment

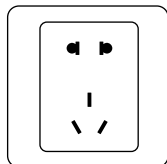

- Cameras: digital SLR, panoramic camera, etc.
- Camera accessories: lens, lens hoods, camera lens cases, camera bags, rain covers, monopods, rechargeable and non-rechargeable batteries including NiCad, NI-MH and alkaline, battery chargers, memory cards and cables.
- Photographic camera installation equipment: heavy duty clamps and arms
- Robotic and remote camera head and mounting accessories
- Remote camera ground mounting platforms (plate)
- Radio controlled shutter release (trigger) devices (e.g. Pocket Wizard)

Others

- Laptop, notebooks, tablets, smartphones and chargers, card readers
- Cables, connectors, cable spools, network testers, network termination equipment, power blocks, gaffer tape, plastic cable sleeves, cable protectors, wire cutters, wire strippers, crimp tools, etc.
- Multi-tools, screwdriver set, battery/mains-powered drills and bits, and other standard portable hand tools such as hammers, saws and scissors
- Office supplies and stationery
- First aid kits

Electric Power

The standard household voltage in China is 220 volts, and the primary photo positions will provide the following types of plugs:

For remote control devices and camera robots: 220 volts, 50 Hz, 16A 3-Pin female connector and splitter.

Lighting

Lighting at all venues complies with the IOC recommendation (i.e. 1540Lux).

Olympic Villages

Each of the three competition zones has an Olympic Village. Welcome Ceremonies and other activities in Villages are cancelled due to the pandemic. Every Village has a VMC but no Photo Team or photo positions. Please contact the Olympic Village VMC Team if need any help.

Venue Commemorative Gift Ceremony

After the ending of a final, a ceremony will be held to present commemorative gifts to medallists on the FOP. POOL photographers have the priority to access photo positions at the ceremony. The VPM can allocate the primary photo positions to the photographers from the country (region) of the medal-winning athletes.

Victory Ceremony

Victory ceremonies for the 58 events in the Beijing Zone will be presented at the Beijing Medals Plaza, and those for the 49 events in the Zhangjiakou Zone will be presented at the Zhangjiakou Medals Plaza.

Victory ceremonies for Alpine Skiing, Bobsleigh, Skeleton and Luge, Ice Hockey, Women's Curling, and Figure Skating pairs will be held at venues where these events are hosted.

The victory ceremonies for Cross-country Skiing women's 30km mass start and men's 50km mass start will be held at the Closing Ceremony.

Zhangjiakou Mountain Press Centre

The Zhangjiakou Mountain Press Centre (ZPC) has the same services and functional area design as the Main Press Centre (MPC). It is the headquarters of accredited press during the Olympic Winter Games Beijing 2022 in the Zhangjiakou Competition Zone. It is located from the first to the third floors of the Genting Grand Hotel.

Operational Stages

Operational Stages	Dates	Operational Hours
Soft Opening	04 - 22 January 2022	07:00 - 22:00
Lockdown	23 January 2022	CLOSED
24-hour Operations	24 January - 20 February 2022	00:00 - 24:00
Bump-out	21 - 27 February 2022	08:00 - 20:00

*The ZPC will be out of service during the Beijing 2022 Paralympic Winter Games.
